1. The Major

Major Profile: In the admission decision for this and every major, a wide range of factors are taken into consideration. The profile should not be used to overstate the importance of grades in the admission decision for academic majors but it may offer some guidance as you plan for transfer.

Department Admission Information

This major is capacity-constrained. Completion of prerequisites does not guarantee admission. Admission is based on:

- Preparation for a major in psychology as indicated by the grades earned in courses required for admission
- Emphasis is placed on the cumulative GPA for the three psychology prerequisites (101, 202 and 209)
- Copies of unofficial transcripts from all schools attended

The application deadline is the first Friday of autumn, winter, spring, and summer quarters. Applications and additional information are available on the department website, <http://www.psych.uw.edu/psych.php?p=39> or in Guthrie Hall 119A.

Visit the general catalog for more information on this major:

Courses Required for Admission to Major

List any relevant college courses taken prior to your intended enrollment at the UW. Courses should be listed as they would appear on your own college transcript including grades in number or letter form and credits from semester or quarter schools. Don't convert grades or credits.

Directions: Record the courses you **have taken, are taking, or plan to take** prior to UW enrollment that you believe are equivalent to the UW course requirements listed below.

| UW Course | Dept. Prefix & Number | Term/Year | Credits | Grade, In Progress (IP) or Projected (P) | College |
|---|-----------------------|---------------|----------|--|-----------|
| <i>Example: MATH 124 – Calculus I</i> | <i>MATH& 151</i> | <i>AUT 08</i> | <i>5</i> | <i>A-</i> | <i>BC</i> |
| MATH 111 NW QSR — Algebra with Applications | MATH 201 | SUM 15 | 5 | A | WSU |
| MATH 112 NW QSR — Business & Econ Calc | | | | | |
| MATH 120 NW — Pre Calculus | | | | | |
| MATH 124 NW QSR — Calc Analyt Geom I | | | | | |
| PSYCH 101 I&S — Intro to Psych | PSYC& 100 | AUT 16 | 5 | 3.5 | SHCC |
| PSYCH 202 NW — Biopsychology | | | | | |
| PSYCH 209 — Psychological Research | PSYC 209 | WIN 17 | 5 | IP | SHCC |

By using the online catalog, Juana found that her math course at WSU looked very similar in title and description to the course required for her major at the UW. While she doesn't know who that course will transfer exactly, she matched them as well as she could.

Additional Information:

Students may fulfill math requirement with test scores that place them in MATH 112 or MATH 124 or higher.

Please note that students taking Pre-Calculus at their transfer institution must complete BOTH Pre-Calculus I and Pre-Calculus II to satisfy admission requirement for the psychology major.

Psychology prerequisites must have a minimum 2.0 grade in each class and a minimum cumulative GPA of 2.5 for three PSYCH courses.

Admission is competitive. Meeting the above criteria does not guarantee admission to the department.

TIP: To find courses at your community college equivalent to the prerequisites listed, use the Equivalency Guide for Washington Community & Technical Colleges, admit.washington.edu/BeforeYouApply/Transfer/Plan/EquivalencyGuide. 2. General Education & Basic Skills Requirements for the College of Arts and Sciences

This major is in the College of Arts and Sciences, and these are requirements for *graduation from that college*. You'll find that many of them overlap with prerequisites for the major and requirements for an associate degree. However, completion of the associate degree does not in itself guarantee completion of UW general education or basic skills requirements so it is in your best interest to work these into your schedule before you transfer. *More info:*

<http://www.washington.edu/uaa/advising/degreeplanning/gereqs.php>

Directions: Record the courses you **have taken, are taking, or plan to take** prior to UW enrollment that you believe are equivalent to the UW course requirements listed below.

General Education Requirements

While math is necessary for the major Juana wants to pursue at the UW, her course also satisfies a general education requirement. For this reason it is listed in both sections 1 and 2.

Areas of Knowledge AoK - To graduate, students complete 75 credits among the three areas listed below. *It is not necessary or even recommended to complete the entire AoK before transferring.* It is just as important to work on prerequisites for your major. Students entering the University of Washington must also meet a Diversity requirement. These credits simultaneously satisfy other Area of Knowledge requirements and do not add to the total number of credits you need to graduate.
