

NAME \_\_\_\_\_ INTENDED QUARTER OF ENTRY \_\_\_\_\_

This worksheet is designed to help you learn about and plan for admission to your intended major and the University of Washington. More info about the admissions process can be found at <http://admit.washington.edu/apply/transfer/>. To plan your transfer, be sure to utilize <https://www.engr.washington.edu/future/transfer>.

**1. The Major**

Major Profile: In the admission decision for this and every major, a wide range of factors are taken into consideration. The profile should not be used to overstate the importance of grades in the admission decision for academic majors but it may offer some guidance as you plan for transfer.

Total undergraduates in HCDE, as of autumn 2017: 220 students

Students from Washington community colleges:

<i>Entering Transfer Cumulative GPA</i>

2.50-2.74 .....	1
2.49 and below .....	0
Total.....	17

**Department Admission Information**

This major is capacity-constrained. Completion of prerequisites does not guarantee admission. Transfer students must submit two separate applications: one to the Office of Admissions and one to the department.

**2019 Application Deadlines:**

Note: Human centered design & engineering admits for both autumn and spring quarters.

For spring admission:

- Apply to the UW by: December 15
- Apply to department by: January 15 via <http://engr.washington.edu/uapp>

For autumn admission:

- Apply to the UW by: February 15
- Apply to department by: April 5 via <http://engr.washington.edu/uapp>

To be eligible to apply, you must have a 2.0 ("C" grade) in each prerequisite course and a 2.50 cumulative GPA in all the prerequisites. These are minimums; the actual GPA of those admitted is much higher.

More information for transfer students is available from the department's website:

<https://www.hcde.washington.edu/bs/admissions>.

## 2. General Education Requirements for the College of Engineering

In planning for your transfer, you should prioritize completing the courses required for the major listed above, rather than general education requirements. This major is in the College of Engineering, and the general education requirements listed below are for *graduation from that college*. You'll find that many of them overlap with prerequisites for the major and requirements for an associate degree. However, completion of the associate degree does not in itself guarantee completion of UW general education requirements.

**Directions:** Record the courses you **have taken, are taking, or plan to take** prior to UW enrollment that you believe are equivalent to the UW course requirements listed below.
