

NAME _____ INTENDED QUARTER OF ENTRY _____

This worksheet is designed to help you learn about and plan for admission to your intended major and University general education requirements. As progress toward your intended major is a factor in transfer admission review, this information is also a part of the transfer admission application. More info: admit.washington.edu

1. The Major

Major Profile: In the admission decision for this and every major, a wide range of factors are taken into consideration. The profile should not be used to overstate the importance of grades in the admission decision for academic majors but it may offer some guidance as you plan for transfer.

Department Admission Information

This major is capacity-constrained. Completion of prerequisites does not guarantee admission.

Admission to the nursing major occurs once a year, for autumn quarter, with an application deadline of January 15. For additional information on admission criteria, specific prerequisites, and deadlines, as well as application forms, contact the Office of Academic Services, School of Nursing, (206) 543-8736 or 1-800-759-NURS or email asknursing@uw.edu. Information sessions are offered periodically in the SON, Health Sciences Building T310, and an Information Sessions podcast is available. For a schedule of sessions or to listen to the podcast, visit www.son.washington.edu/admissions/info/default.asp.

 - 3 Three quarter chemistry series - CHEM 120, CHEM 220, CHEM 221 - for UW students; two-quarter sequence - one general chemistry and one organic - for non-UW applicants.
 - 4 MICROM 302 for UW students. Non-UW applicants must take a separate microbiology lab if lab not included in general microbiology course.
- Admission requires a minimum cumulative GPA of 2.0 as well as a minimum grade of 2.0 for each individual prerequisite. Admission is competitive and the cumulative GPA is usually significantly higher than 2.0. In addition, applicants must satisfy one of the following at the time of application:
 - a. Three out of the total prerequisite science courses completed with a minimum cumulative GPA in these three courses of 3.00
 - b. Four out of the total prerequisite science courses with a minimum GPA in these four courses of 2.80
 - Together with the application and college transcript(s), applicants submit a personal statement; a resume outlining volunteer/paid health-care experience, community service, and cultural awareness; and a recommendation from a health care provider (employer or volunteer coordinator).
 - Applicants are expected to have 100 hours of health care experience in a paid or volunteer position in one setting for at least a three month period or more, averaging about 8 to 10 hour per week, completed within 12 months preceding submission of the application. The majority of applicants present health care experiences of several hundred hours for nine months or more.
 - After an initial review of all applications, some applicants are asked to attend a proctored essay session. The proctored essay dates are published in the admissions publication. Eligible applicants are invited via email.

TIP: To find courses at your community college equivalent to the prerequisites listed, use the Equivalency Guide for Washington Community & Technical Colleges, admit.washington.edu/BeforeYouApply/Transfer/Plan/EquivalencyGuide. 2. General Education & Basic Skills Requirements for the School of Nursing

This major is in the School of Nursing, and these are requirements for *graduation from that college*. You'll find that many of them overlap with prerequisites for the major and requirements for an associate degree. However, completion of the associate degree does not in itself guarantee completion of UW general education or basic skills requirements so it is in your best interest to work these into your schedule before you transfer. *More info:*

Areas of Knowledge AoK - To graduate, students complete 60 credits among the three areas listed below. *It is not necessary or even recommended to complete the entire AoK before transferring.* It is just as important to work on prerequisites for your major. Students entering the University of Washington must also meet a Diversity requirement. These credits simultaneously satisfy other Area of Knowledge requirements and do not add to the total number of credits you need to graduate.
