

Sample A Class

Autumn Quarter, 2018

Welcome, and thank you for your interest in visiting campus. Please read these guidelines before attending any class on drop-in course list:

1. **Arrive on time** and remain for the entire class. Some classes are longer than others, so be sure to check the class times.
2. Please **introduce yourself to the** professor before the class begins, so that they know you are there and can meet you.
3. If the class you wish to visit appears to be taking an exam or doing a special activity, choose another class.
4. Conduct yourself in a manner that **will not disrupt** the class or lecture. This includes **turning off cell phones** or other noise-making devices, providing the professor with your undivided attention and refraining from participating in lecture unless specifically encouraged.
5. Please limit the number of visitors to a **maximum of 3 per class**.
6. Room numbers cannot be guaranteed. Please verify class locations by viewing the Time Schedule at <https://www.washington.edu/students/timeschd/AUT2018/>.
7. The Drop-In Course List includes a small sample of UW classes. A full list of course offerings is available at <https://www.washington.edu/students/crscat/>.
8. Please **do not** visit any class that is not listed in the Drop-In Course List.

Class Time

Course Description ---

ACCTG 215 Introduction to Accounting and Financial Reporting

Professor P. Demerjian

Paccar 192

TTh

8:30 am – 9:50 am

Nature and social setting of accounting; uses of accounting information; introduction of basic accounting concepts and procedures; interpretation of financial statements.

AES 150 In-Justice for all: Intersection of Race, Ethnicity, Class, and Gender in the United States

Professor C. So

Kane 110

TTh

12:30 pm – 2:20 pm

Gowen 301

F

12:30 pm – 1:20 pm

Focusing on pre-Columbus era to 1970, students develop an understanding of how race, ethnicity, nationality, class, and gender impact all Americans – especially those viewed as racial ethnic minorities.

ANTH 101 Exploring Sociocultural Anthropology

Professor H. Barker

Savory 260

WF

1:30 pm – 2:20 pm

Introduces perspectives from sociocultural anthropology on the diversity and the dynamics of collective human life. Examines how individual lives are shaped by broader social and cultural contexts, how people make meaning, and how power relations work. Introduces ethnography as a method for documenting and understanding social and cultural life.

ANTH 233 Introduction to Language and Society

Professor B. Evans

Kane 110

MWF

8:30 am – 9:20 am

Introduces the study of sociolects, the varieties of language that arise from differences in cultural and societal groups, often reflective of power inequalities. Raises awareness of the role that society and the individual play in shaping sociolects via the systematic observation and critical discussion of linguistic phenomena.

ARCHY 109 Archaeology in Film

Professor B. Marwick

Sieg 134

MW

11:30 am – 12:20 pm

Smith 120

F

11:30 am – 2:20 pm

Deals with depictions of archaeology by and for non-archaeologists and implication of those depictions at the intersection of archaeology, the human past, and popular culture.

ATM S 111 Global Warming: Understanding the Issues

Professor D. Frierson

Kane 210

MTWThF

11:30 am – 12:20 pm

Includes a broad overview of the science of global warming. Discusses the causes, evidence, future projections, societal and environmental impacts, and potential solutions. Introduces the debate on global warming with a focus on scientific issues.

B E 200 Introduction to Built Environments

Professor V. Prakash

Physics Astronomy Auditorium A118

Th

3:30 pm – 4:50 pm

Introduction to critical issues related to the planning, design, construction, and use of our built environments and the roles of the various disciplines contained within the College of Built Environments.

BIO A 101 Human Biological Diversity

Professor A. Hill

Smith 120

MW

2:20 pm – 3:50 pm

Exploration of human biological variation, including skin color, body form, blood groups, genetics, and reproductive strategies. Introduction to the theory of evolution through natural selection.

BIOL 118 Survey of Physiology

Professor K. Petersen

Kane 120

MTWThF

9:30 am – 10:20 am

Human physiology, for non-majors and health sciences students.

BIOL 180 Introductory Biology

Professor S. Freeman

Kane 130

MTWThF

1:30 pm – 2:20 pm

Mendelian genetics, evolution, biodiversity of life forms, ecology, and conservation biology. Open to all students interested in biology whether intending to major in the biological sciences, enroll in preprofessional programs, or fulfill a Natural World requirement.

CHEM 142 General Chemistry

Professor C. Craig

Kane 130

MWF

3:30 pm – 4:20 pm

For science and engineering majors. Atomic nature of matter, quantum mechanics, ionic and covalent bonding, molecular geometry, stoichiometry, solution stoichiometry, kinetics, and gas laws. Includes laboratory.

Email Professor before showing up. cfcraig@uw.edu.

COM 220 Introduction to Public Speaking

Professor M. McGarrity

Mary Gates Hall 389

MW

11:30 am – 12:20 pm

Designed to increase competence in public speaking and the critique of public speaking. Emphasizes choice and organization of material, sound reasoning, audience analysis, and delivery.

CSE 142 Computer Programming I

Professor B. Wortzman

Kane 120

MWF

3:30 pm – 4:20 pm

Basic programming-in-the-small abilities and concepts including procedural programming (methods, parameters, return, values), basic control structures (sequence, if/else, for loop, while loop), file processing, arrays, and an introduction to defining objects. Intended for students without prior programming experience.

PSYCH 101 Introduction to Psychology

Professor A. Culligan

Architecture Hall 147

MTWThF

9:40am – 10:40am

Surveys major areas of psychological science. Core topics include human social behavior personality, psychological disorders and treatment, learning, memory, human development, biological influences, and research methods. Related topics may include sensation, perception, states of consciousness, thinking, intelligence, language, motivation, emotion, stress and health, cross-cultural psychology, and applied psychology.

PSYCH 202 Biopsychology

Professor A. Andelin

Bank of America Executive Education Center 110

MTWTh

9:40am – 10:40am

Examines the biological basis of behavior, the nervous system, how it works to control behavior and sense the world, and what happens when it malfunctions. Topics include learning and memory, development, sex, drugs, sleep, the senses, emotions, and mental disorders.

PSYCH 101 Introduction to Psychology

Professor A. Culligan

Architecture Hall 147

MTWThF

9:40am – 10:40am

Surveys major areas of psychological science. Core topics include human social behavior personality, psychological disorders and treatment, learning, memory, human development, biological influences, and research methods. Related topics may include sensation, perception, states of consciousness, thinking, intelligence, language, motivation, emotion, stress and health, cross-cultural psychology, and applied psychology.

PSYCH 202 Biopsychology

Professor A. Andelin

Bank of America Executive Education Center 110

MTWTh

9:40am – 10:40am

Examines the biological basis of behavior, the nervous system, how it works to control behavior and sense the world, and what happens when it malfunctions. Topics include learning and memory, development, sex, drugs, sleep, the senses, emotions, and mental disorders.
